CALFED BAY-DELTA PROGRAM

Notice of Availability Final Programmatic Environmental Impact Statement/Report

Solano Cty. CAO
FILED
7/26/00

Project Description: To develop a long-term comprehensive plan that will restore ecological health and improve water management for beneficial uses of the Bay-Delta system. The project purpose includes program-level plans to achieve the goals and objectives which address the four critical resource areas of water quality, water supply reliability, ecosystem quality, and Delta levees and channel system integrity.

Project Location: San Francisco Bay-Sacramento/San Joaquin River Bay-Delta and their corresponding watersheds; Southern California water systems' service areas; and a band of off-shore areas from Morro Bay to the Oregon border. The California Environmental Quality Act (CEQA) requires that environmental documents list toxic sites within a project area; however, due to the programmatic nature of this document, this information is unknown. Such lists will be included in the analyses and notices for subsequent project-specific documentation.

Significant Environmental Impacts: The CALFED Bay-Delta Program alternatives were analyzed to determine the potential for adverse and beneficial consequences. For detailed information, please see the Final Programmatic EIS/EIR.

Waiting Period: The lead agencies will not take any action or make a decision regarding the CALFED Bay-Delta Program for 30 days following the release of the Final Programmatic EIS/EIR.
